3 Steps to obtain Advice Forge Services

+ 1. Your request

Just send us a request for a free quotation, either by e-mail or via our web form at <http://adviceforge.co.uk/contact/>
We will send you an offer or guide you through our portfolio.

+ 2. Your order

Just fill out an order form on our web store, where you choose the type of service you require. The next step is to fill in the billing information. The first payment (including prepaid discount of 5, 10 or 15%) is only for a one month cycle to allow for our 30 day money back guarantee

+ 3. Your service

After the payment is credited to our bank account we shall assemble, install and test your service within 48 hours (or by appointment as desired).

No risk – 100% money back guarantee

Internet business is becoming increasingly sensitive to the quality and stability of server services.

And precisely for this reason we have decided to offer our services with satisfaction guaranteed or 100% money back.

SLA 99.96 % uptime guarantee for our clusture services

Our network backbone consists of multiple redundant internet connections and components. This means we are confident enough to guarantee 99.96% network availability, excluding any scheduled maintenance.
